Skill and Safety Training

The most important component of your project is the ability of your employees to complete the task at hand in a professional and safe manner. P.R.I.M.E. Locals have been training skilled Ironworker journeymen and apprentices to meet your needs.

At the Local Union's State or Federal DOL certified training facility, apprentices are trained according to the highest industry standards.

Journeymen are offered training to upgrade their skills to meet the demands of today's projects.

OSHA safety training is an integral part of the curriculum and required to meet our goal of an accident free, zero lost-time environment.

Training To Meet Your Needs

Your company may have a project with unique requirements. P.R.I.M.E. Locals are poised and ready to assist you in training a workforce specific to the needs of your company. Custom-made training can be planned and implemented to assure your project proceeds on schedule and without a lengthy punch list.

Safe Ironworkers Hold Down Your Costs

Lost-time accidents and insurance rates go hand in hand. By using the skilled workforce of the P.R.I.M.E. Locals, you can be assured that you are using Ironworkers who are trained and personally responsible to work safely for your company.

Bidding Information Tailored to Your Company

P.R.I.M.E. Locals can provide your business will data to help grow your business. Dodge reports and an Industrial jobs database can be used free of charge to you. P.R.I.M.E. Locals will tailor bidding information to your business needs.
