

Dear Brothers and Sisters:

We are facing challenging times both politically and economically.

With that being said, this is not the time to scale back on political activity or recruiting new members.

The Iron Workers currently have one member in Congress, Representative Steve Lynch (MA-09), and we now have the opportunity to put another ironworker in the United States House of Representatives. Harry Crawford, Local 751, Anchorage, Alaska is a 37 year member and is currently a member of the Alaska State House of Representatives. Harry is working hard running for U.S. Congress but he needs our help.

Federal candidates cannot accept contributions from monies made up from union dues and the Ironworkers federal PAC has given the maximum amount allowed by law. If you can afford \$25.00 or more go to <http://www.harrycrawfordforcongress.com/> and make a credit card donation. Helping a brother ironworker getting elected to Congress helps us all.

If we all do a little we can make a big difference. Please contribute to Brother Harry Crawford and encourage other ironworkers to do the same.
